

Your contingent workforce, without the complexity

One experienced partner for the engagement, payment, compliance, and care of your entire contract workforce. Clients consistently realise savings of **10 to 18 per cent** on total contractor spend, alongside stronger governance.

One partner. Every obligation covered.

Australia's largest organisations typically manage dozens, sometimes hundreds, of contract resources across multiple vendors, agreements, and pay arrangements. The result is cost leakage, compliance exposure, inconsistent rates, and administrative overhead nobody budgeted for. Precision consolidates your contingent workforce through a single managed relationship covering:

Compliant engagement structures

Right-to-work, contractor classification, superannuation, and tax obligations managed under current Fair Work and tax legislation.

Payroll and invoicing

Consolidated payroll and invoicing across your entire contractor population, accurate and on time, every time.

Insurances

Professional indemnity, public liability, and workers compensation verified and maintained for every contractor.

Timesheets and reporting

One timesheet system, with real-time visibility of spend, headcount, tenure, and classifications for finance, HR, and procurement.

Contractor care

Responsive support, reliable pay cycles, and a single point of contact, so your contractors stay focussed on delivery.

FOR ORGANISATIONS

- ◆ Savings of 10 to 18 per cent on total contractor spend
- ◆ One agreement replaces a tangle of vendor contracts
- ◆ Compliance risk managed end to end
- ◆ Market-benchmarked rate cards stop informal rate escalation
- ◆ Real-time visibility of spend, headcount, and tenure

FOR CONTRACTORS

- ◆ Paid accurately and on time, every cycle
- ◆ Compliance, superannuation, and tax handled for you
- ◆ Insurances arranged and maintained
- ◆ One point of contact for every question
- ◆ Freedom to focus on the work you were engaged to do

How it works: implementation in weeks

01

Discovery

We map your current contractor arrangements, vendor agreements, rates, and compliance status across all divisions.

02

Design

We design a consolidated operating model tailored to your size, sector, and regulatory environment.

03

Transition

We migrate contractors and vendors with zero disruption to your active programmes and projects.

04

Operate

Ongoing management, reporting, and compliance across your full population, with regular savings reporting.

10 to 18%

The reduction in total contractor spend our clients consistently realise through consolidation, rate standardisation, and the elimination of hidden overhead. Backed by a firm with 94.3 per cent on-budget delivery across AU\$2.3 billion of governed programme value.

Less complexity. More control. **One conversation to start.**
